How does it work?

you need never worry about missing a class again!

No work placement required!

Learning is geared around you and your life. You choose when and where to study. Programmes are exclusively online and are assessed by a fully qualified assessor.

Learners have a maximum of 20 weeks to complete the qualification, this is easily achievable by dedicating just two hours a week, however, qualifications can be completed sooner if you choose. Once you are enrolled you will get instant access to your course. You will receive text reminders and email updates throughout your course and your work will be assessed and returned in a timely manner. When you submit your final piece of work we will then apply for your certificate which will all be confirmed in an email from us.
